Jin Hwa Lee

jinhwa.lee@tum.de

Education

Technical University of Munich — Munich
M.Sc in Neuroengineering — Oct.2019–

- Selected Courses: Statistics and Probability, Large Scale Data Analysis and Modelling, Computational Neuroscience, Deep Learning, Biologically Inspired Learning Systems, Information Theory

Korea Advanced Institute of Science and Technology (KAIST) — Daejeon
B.Sc in Physics, GPA: 3.90 (Top 4.5%) — Mar.2015–Aug.2019

- Graduated with honors *magna cum laude*
- Thesis: Studies in spatial entropy and classification of art paintings

Research and Teaching Experience

Bethge Lab, Uni.Tübingen & Mathis Lab, EPFL — Tübingen, Geneva
Research Internship / Master Thesis — Sep.2020–

- Self-supervised learning on neural/behavioral data
- Supervised by *Matthias Bethge, Mackenzie Mathis, Steffen Schneider*

Technical University of Munich — Munich
Teaching Assistant — Apr.2020-Aug.2020

- Machine Learning: Methods and Tools (EI 71040)
- Updating lecture materials and tutoring exercises

Macke Lab, TUM — Munich
Research Internship — Feb.2020-Apr.2020

- Domain invariant variational auto-encoder
- Supervised by *Jakob Macke*

Infineon — Munich
Applied Machine Learning Team, Working Student — Jul.2019-Feb.2020

- Combinatorial optimization of HW/SW with deep reinforcement learning

Publications and preprints

[1] K. S. Mann, S. Schneider, A. Chiappa, J. H. Lee, M. Bethge, A. Mathis, and M. W. Mathis, "Out-of-distribution generalization of internal models is correlated with reward", in *Self-Supervision for Reinforcement Learning Workshop-ICLR 2021*, 2021.

[2] L. Servadei, J. H. Lee, J. Arjona-Medina, M. Werner, S. Hochreiter, W. Ecker, and R. Wille, "Deep reinforcement learning for optimization at early stage", in *IEEE Design & Test of Computers (Under review; conditional acceptance)*, 2021.

Scholarships and Awards

- DAAD Scholarship for Master Study — Oct.2020–
- 1st Prize, IEEE Brain BCI Designer Hackathon — Jul.2020
- National Science and Engineering Undergraduate Scholarship — Mar.2017–Feb.2019

Social works

Connect Foundation — Seoul
Educational Volunteer work — June.2016-Jan.2019

- I contributed as a translator and translation mentor in Connect Foundation to promote equal education opportunity to everyone in Korea. See my interview (Korean) as a honored volunteer

International Conference for the Integration of Science, Technology and Society — Daejeon
Organizing Committee, Public Relations Team — Sep.2015-Aug.2016

- I worked on promoting the events and our vision on multiple media channels and industry sponsors as a part of organizing committee. More information on ICISTS (Korean)
